

Pocket Thermometer

FEATURES:

Backlit LCD Digital Display, °C/°F Temperature Scales, Foldout Stainless Steel Probe all in a Compact Pocket Size.

OPERATING INSTRUCTIONS:

Probe Insertion

Press power button to release the foldout probe or use the manual release handle to manually release the probe. Extend completely and lock into position. Insert probe tip into the thickest part of the meat, taking care not to pierce through it. Do not expose any part of the probe to open flames.

Hold Button/Backlight

Press the hold button to illuminate the backlight
Fold probe into the body of the thermometer to power off.

Temperature Display

Press button for desired temperature scale.

CARE INSTRUCTIONS:

Clean outside of the thermometer with a damp soft cloth.
Dry completely with soft cloth.
Do not use abrasive cleaning agents.
Thermometer is NOT waterproof. Do not submerge in water.

WARNING: The meat probe is not intended for use as an oven thermometer or grill surface thermometer. The meat probe is designed to measure internal meat temperature and has an operational range between -58°F and 572°F (-50°C and 300°C). Exposing the probe tip to temperatures above 572°F (300°C) could cause damage to the temperature sensor.

WARNING: The probe quick release is spring loaded. Please keep fingers clear of probe during release. Make sure to extend completely and lock probe into position prior to inserting into meat.

WARNING: DO NOT mix old and new batteries. DO NOT mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries. DO NOT dispose of batteries in fire. Batteries may explode or leak. Please dispose of batteries properly. Remove the batteries when not in use for an extended period of time. Batteries could leak causing corrosion.

CAUTION: Stainless steel meat probe will become extremely hot during use. Remove probe from meat and allow to cool. Remove probe prior to slicing into meat.
